

# CORE Eligibility

## Eligibility automated

CORE Eligibility helps simplify your eligibility processing and offers capabilities like auto-enrollment, participant communication, break-in-service computations, and auto escalations.

## CORE Eligibility module enables

### Automation

- Eligibility determination based on age, length of service, hire dates and hours, etc. at both plan and source levels
- Periodic or on-demand eligibility checks
- Enrollment/re-enrollment
- Support for LTPT eligibility calculations
- Personalized communication
- Contribution escalation
- Break-in-service calculations

### Reporting

- Reports on eligible and ineligible employees along with the reason for ineligibility
- Sponsors and administrator dashboards to view the breakdown of all employees who have opted out
- Forecasting eligibility and entry dates

### Flexibility

- Configurable rules engine with the ability to define any number of eligibility rules
- Different rules for employees in different locations, divisions or other classifications
- Multi-tier eligibility and grandfathered provisions
- Effortless integration with existing record-keeping systems for census data, plan rules, payroll details etc.

### Product features

- Delivered as a licensed application or a hosted solution, CORE Eligibility and Enrollment can serve the needs of plan sponsors, plan providers, record-keepers, and advisors of all types and sizes.
